

Case studies are an excellent way of to learn from the real experience of other projects and see how they have applied evaluation tools in real life. What worked, what didn't, how did you do it, what would you do differently next time? During the development of the toolbox we collected some case studies to share with you. If you want to share your behaviour change program evaluation experience with others, then why not lead by example and [add your case study](#) .

### List of case studies

Case Study
Description

<a href="#">Logical Framework Approach Training Project</a>
---
